1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-19 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Rodi et al.

Rodi et al. disclose in Fig. 2 a guide apparatus including guide element 13 disposed above feed table 5, a height-adjusting device having first and second drives 22, 32 and a lifting device 28.

3. Applicants' arguments filed June 14, 2004 have been fully considered but they are not persuasive.

Applicants state that the Rodi et al. reference does not show a lifting device connected to the guide element for displacing the guide element. However, note the lifting device 28 (lever arm 28) of Rodi et al., which is connected to guide element 13 and which functions to displace the guide element 13.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
